**DETAILED ACTION**

***Claim Rejections - 35 USC § 112***

1. Claims 1-21 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

a. The invention is described in the specification with the second end being attached to the prime mover and the first end having a taper 26 as noted on page 5 line 5 and throughout the specification there on. The claims are claim the reverse of this with the first end being attached to the prime mover and second end having a taper.

2. Claims 1-21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

b. The following claims are indefinite, vague, awkwardly, and confusingly worded:

i. Claims 1, 2, and 12 state the first end being attached to the prime mover and second end having a taper which is opposite of the disclosure. There it is not clear what the invention is supposed to be.

***Claim R j ctions - 35 USC § 102***

Art Unit: 3723

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 2-3, 5, 8-10 are rejected as best understood in view of the above 112 rejections under 35 U.S.C. 102(b) as being anticipated by Wilcox (5208958).

Wilcox discloses a removal tool having a primer mover (12&16), a snout (35&60), and a pull rod (83).

#### ***Allowable Subject Matter***

5. The following is a statement of reasons for the indication of allowable subject matter: If applicant overcome the 112 rejection the following claims have possible allowable subject matter claim 1, 4, 7, 11, and 12-21.

#### ***Conclusion***

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Pfeifer, Martin, and Wang disclose an invention.
